# SHLOK RASKAR

**Java Backend Developer | Spring Boot • REST APIs • MySQL | Open to Relocation**

Pune, MH • +91 8857809290 • raskarshlok07@gmail.com • LinkedIn • GitHub • LeetCode

## PROFESSIONAL SUMMARY

Java Backend Developer with 6 months of internship experience building secure **Spring Boot REST APIs** on **MySQL**. Built and **deployed** a **JWT**-secured food delivery backend on Render with **Swagger** API docs and application **logging**, plus a Gemini-powered snippet manager using **Spring AI**. Solved **150+ DSA problems**. Available for immediate joining.

## TECHNICAL SKILLS

**Languages: Java** (Core, Collections, Streams, Multithreading), **SQL**
**Frameworks: Spring Boot 3.x**, Spring MVC, **Spring Security 6.x** (**JWT**, BCrypt), **Spring Data JPA**, **Hibernate**, **Spring AI**
**Database & Testing: MySQL**, **JUnit 5**, **Mockito**
**Tools & Concepts: Git**, GitHub, **Maven**, Postman, **Swagger/OpenAPI**, **Render** (Deployment), Application Logging, **REST API Design**, **OOP**, Prompt Engineering

## WORK EXPERIENCE

**Java Developer Intern** — Graviton Soft, Ahmednagar, MH 2025 – 2026 (6 months)

- Developed **REST APIs** using **Spring Boot** and **MySQL**, following layered architecture and team **Git** workflows.
- Implemented **role-based access control** with **Spring Security** and **JWT**, restricting API endpoints by user role.
- Wrote **JUnit** tests for service-layer methods to validate business logic and reduce regression risk.

## TECHNICAL PROJECTS

**Swift Serve — Food Delivery Backend** | GitHub | Live API Docs

Stack: Java, Spring Boot 3.x, Spring Security 6.x, Spring Data JPA, MySQL, JWT, BCrypt, Swagger, Maven, Render

- Engineered **REST APIs** for user registration, authentication, menu browsing, and order placement using **Spring Boot 3.x** and **Spring Data JPA** on **MySQL**.
- Secured all endpoints with **JWT authentication** via **Spring Security 6.x** and **BCrypt** password hashing, blocking unauthenticated access.
- **Deployed the backend on Render** with interactive **Swagger UI** documentation, so every endpoint can be tested live.
- Added application **logging** for request flow and error tracking to simplify debugging.
- Structured the codebase into **Controller, Service, and Repository** layers, enabling isolated unit testing.

**CodeLocker — Code Snippet Manager** | GitHub

Stack: Java, Spring Boot 3.3, Spring AI, Gemini API, MySQL, Hibernate, JUnit 5

- Built a snippet management backend with **Spring Boot** and **Hibernate** supporting save, tag, and search of reusable code.
- Integrated the **Gemini API** via **Spring AI** to auto-generate contextual tags and summaries for saved Java snippets, improving searchability.
- Enforced input validation with **Hibernate Validator** (@NotNull, @Size) and verified service logic with **JUnit 5** tests.

## EDUCATION

**MCA** — Master of Computer Applications | IBMRD Ahmednagar (SPPU) 2024 – 2026 | CGPA: 7.86/10

**BCA** — Bachelor of Computer Applications | Ahmednagar College (SPPU) 2021 – 2024 | CGPA: 8.0/10

## CERTIFICATIONS & ACHIEVEMENTS

- **Java Backend Training — Naresh IT, Hyderabad:** Core Java, JDBC, and Spring Boot.
- **Data Structures & Algorithms:** Solved 150+ problems on LeetCode and HackerRank (Arrays, HashMaps, Strings).
